

IPL -2014

Interventional Pulmonology League - 2014 8th CME

Stepwise Approach to Interventional Pulmonology

(22nd March & 23rd March - 2014)

Endorsed by European Association of Bronchology & Interventional Pulmonology
Under the auspices of Indian Chest Society West Zone
Organised by Institute of Pulmonology Medical Research & Development, Mumbai

Venue: Hotel Sofitel, Bandra Kurla Complex, Mumbai, INDIA
Program Director

Dr. Prashant Chhajed

Director: Lung Care and Sleep Centre, Fortis Hiranandani Hospital Chest Physician & Interventional Pulmonologist Lilavati, Nanavati and Fortis Hospitals, Mumbai Privat Dozen, University Hospital Basel, Switzerland

Expert Panel / Faculty

Dr. Abdul Ansari, Mumbai

Dr. Agam Vora, Mumbai

Dr. Amit Dhameja, New Delhi

Dr. Amita Athavale, Mumbai

Dr. B.S Shastri, Mumbai

Dr. Bharesh Dedhia, Mumbai

Dr. Chandrashekhar Tulasigeri, Navi Mumbai

Dr. Jayachandra, Hyderabad

Dr. Kamlakar Patole, Mumbai

Dr. Karan Madan. New Delhi

Dr. Martin Brutsche, Switzerland

Dr. Prahlad Prabhudesai, Mumbai

Dr. Prakash Jiandani, Mumbai

Dr. Pratibha Singhal, Mumbai

Dr. Sanjith, Mumbai

Dr. Sejal Gandhi, Navi Mumbai

Dr. Shishir Shetty, Navi Mumbai

Dr. Zarir Udwadia, Mumbai

Institute of Pulmonology, Medical & Research Development (IPMRD), is engaged in enhancing educational activities and clinical research in the field of Respiratory Medicine. The objectives of IPMRD include performing research to find solutions for local problems, to utilize research results in practice and guidelines formulation and to identify and initiate research in emerging fields of respiratory medicine. The IPMRD has given platform for clinical and research activities through the Lung Care Team to five research associates so far and has recently also set up a medical library. IPMRD has supported so far seven Interventional Pulmonology Courses.

We are pleased to announce our 8th national CME on Stepwise Approach to Interventional Pulmonology on 22nd & 23rd March 2014. This CME will be a unique combination of case based discussion & lectures in the field of Interventional Pulmonology. We aim to cover basic understanding, practical approaches & newer advances in the field of Bronchology.

We are looking forward to seeing you at this interactive session.

Lung Care Team

- 1. **Dr. Prashant Chhajed,** Director Lung Care & Sleep Centre
- 2. **Dr. Arvind Kate,** Chest Physician
- 3. **Dr. Preyas Vaidya,** Chest Physician
- 4. **Dr. Unmil Shah,** Chest Physician
- 5. **Dr. Deval Mehta,** Chest Physician

Lung Care Associates

- 1. **Dr. Parag Chaudhari,** Louisiana State University of Medicine, New Orleans, USA
- 2. **Dr. Santha Kumar,** Coimbatore
- 3. **Dr. Ankur Mehta,** Baroda, Gujarat
- 4. Dr. Sachin Patil, Alibaug, Raigad
- 5. **Dr. Sandeepa H S,** Bangalore
- 6. Dr. Parth Shah, Baroda

Scientific Programme

Session A

- 1. Bronchoscopy Checklist
- 2. Bronchoscopic Anatomy & Pathologies
- 3. Anesthesia and sedation for bronchoscopy and pleuroscopy
- 4. Anesthesia and sedation for EBUS and Rigid bronchoscopy. How I will do it!
- 5. Disinfection
- 6. When things go wrong

Session B

- 1. Diagnostic technique: BAL, EBB, TBLB
- 2. TBNA
- 3. When Things Go Wrong
- 4. Processing of pulmonary samples: Standard of Care. How do we achieve it?

Session C

Bronchoscopic pearls in ICU / OT

- 1. Bronchoscopic intubation
- 2. Bronchoscopy technique in ventilated patient
- 3. Bronchoscopy in difficult weaning
- 4. Bronchoscopy in post intubation tracheal stenosis
- 5. Percutaneous Tracheostomy
- 6. Bronchoscopy in emergent situations

Session D

Bronchoscopy in Pulmonary Infections

- 1. Bronchoscopy in VAP
- 2. Bronchoscopy in the Fibrile neutropenia / Immunocompromised
- 3. Bronchoscopy in Non-resolving pneumonia

Session E

EBUS

- 1. Conventional EBUS-TBNA
- 2. Radial probe EBUS
- 3. EBUS through LMA & Transvascular EBUS
- 4. Cases
- 5. When Things Go Wrong

Session F

Pleura

- 1. Chest ultrasound: Why & How I will do it?
- 2. Pleuroscopy: When and Why?
- 3. Pleuroscopy technique

- 4. Pleural Drains
- 5. Pleuroscopy: Beyond pleura
- 6. Pleurodesis
- 7. When Things Go Wrong

Session G

Gadgets for therapeutic interventional pulmonology:

Technical aspects, Tools and Technique

- 1. Electrocautery
- 2. Cryotherapy
- 3. Laser
- 4. Silicone stents
- 5. Metal stents
- 6. Glue therapy in hemoptysis
- 7. Rigid bronchoscopy
- 8. Foreign Body removal
- 9. Special stent techniques
- 10. Airway Stenosis: Bronchoplasty / Tracheoplasty
- 11. When things go wrong

Session H

ILD and Bronchoscopy

- 1. Transbronchial lung biopsy in ILD: When I will do it?
- 2. VATS Lung biopsies: When I will ask for it?
- 3. VATS Lung biopsy: How I do it?

Session I

Newer Therapeutic technique for this decade

- 1. Bronchoscopic management of Emphysema
- 2. Bronchial Thermoplasty for asthma

Session J

Stations

- 1. Conventional Bronchoscopy
- 2. Endobronchial Ultrasound Radial probe
- 3. Endobronchial Ultrasound convex probe
- 4. Pleuroscopy
- 5. Bronchoscopic electrocautery
- 6. Rigid Bronchoscopy
